

PARTNER OF MORGAN

METEORIC CAREER OF NEW MEMBER OF BANKING FIRM.

Why Famous Financier Has Chosen Henry P. Davison for an Aid—Success Won by Energy, Integrity and Brains.

New York.—Among the men who have won their way to fortune and a commanding place in the financial world will have to be written the name of Henry P. Davison, late vice-president of the First National bank, but who on January 1 became a partner in the banking house of J. P. Morgan & Co.

To men of finance the name of Henry P. Davison is very familiar, and stands for all that goes to make up the successful banker and man of affairs, for although but 41 years of age, Davison has made himself felt as a power in the money world.

Henry P. Davison is strictly a self-made man. Every dollar he possesses he made from the raw material of energy, hard work, application, honesty and quick intelligence. When about 19 years ago he came to New York from Bridgeport, Conn., he was merely a bright, active, enthusiastic young fellow, who had had a little experience as a bank clerk in his native town of Troy, Pa., and in Bridgeport. He had a few hundred dollars, but his real capital was in his head.

The little money he had then cannot be considered as even the nucleus of the fortune he has acquired since, for Mr. Davison does not owe his success to frugality and saving; he owes it to keen business foresight and knowledge of finance, and to the confidence of moneyed men he has won.

He was born in Troy, Pa., a little town near the northern border of the

HENRY P. DAVISON

state, not very far from Elmira, N. Y. His father was a business man, and his uncles were the local bankers. Young Davison was graduated from the Troy high school at the age of 15 years, and when he was 16 he was teaching school, having in his class some boys older than himself.

He kept at this work for a term or two, and then entered his uncle's bank as a clerk. There he got a fairly good knowledge of the banking business and widened his acquaintance so that in a year or so he got an offer of a bookkeeping position from the Pequenock National bank, of Bridgeport, Conn.

He gave perfect satisfaction there, but he himself was not satisfied, for he wanted to get into the larger game and become a New York banking man. So he sought and obtained a position in the Astor Place bank in this city. He was only 22 years old, but he soon became receiving teller.

The Astor Place bank became a branch of the Corn Exchange bank and Davison went to the Liberty National and in six years worked up from one position to another until he became president of that institution. He resigned to become vice-president of the First National, and he has held that important position for six years, taking ever a more and more active and prominent part in general banking affairs and having his advice more and more sought by the big men of the financial world.

During the business depression and financial disturbances last year Mr. Davison was a member of the special clearing house committee which made a searching investigation into the affairs of many financial institutions, and he took part in all the important meetings of the big men of Wall street.

And J. Pierpont Morgan, as keen a judge of men as may be, having watched Mr. Davison's career and studied his character and methods closely for years, has chosen him for a partner in his big banking house. To Wall street men that is the highest endorsement which could be given, for they know that it would not be obtained save by the display of ability which but few men possess.

HURT IN A WRECK.

Kidneys Badly Injured and Health Seriously Impaired.

William White, R. R. man, 201 Constantine Street, Three Rivers, Mich., says: "In a railroad collision my kidneys must have been hurt, as I passed bloody urine with pain for a long time after, was weak and thin and so I could not work. Two years after I went to the hospital and remained almost six months, but my case seemed hopeless. The urine passed involuntarily. Two months ago I began taking Doan's Kidney Pills and the improvement has been wonderful. Four boxes have done me more good than all the doctoring of seven years. I gained so much that my friends wonder at it."

HANDS RAW AND SCALY.

Itched and Burned Terribly—Could Not Move Thumbs Without Flesh Cracking—Sleep Impossible.

Cuticura Soon Cured His Eczema.

"An itching humor covered both my hands and got up over my wrists and even up to the elbows. The itching and burning were terrible. My hands got all scaly and when I scratched, the surface would be covered with blisters and then get raw. The eczema got so bad that I could not move my thumbs without deep cracks appearing. I went to my doctor, but his medicine could only stop the itching. At night I suffered so fearfully that I could not sleep. I could not bear to touch my hands with water. This went on for three months and I was fairly worn out. At last I got the Cuticura Remedies and in a month I was cured. Walter H. Cox, 16 Somerset St., Boston, Mass., Sept. 25, 1908."

He Wanted to Get a Fair Start.

An old citizen, who had been henpecked all his life, was about to die. His wife felt it her duty to offer him such consolation as she might, and said: "John, you are about to go, but I will follow you."

"I suppose so, Manda," said the old man, weakly, "but so far as I am concerned, you don't need to be in any blamed hurry about it."—Argonaut.

LAME BACK PRESCRIPTION

The increased use of "Toris" for lame back and rheumatism is causing considerable discussion among the medical fraternity. It is an almost infallible cure when mixed with certain other ingredients and taken properly. The following formula is effective: "To one-half pint of good whiskey add one ounce of Toris Compound and one ounce Syrup Sarsaparilla Compound. Take in tablespoonful doses before each meal and before retiring."

Toris compound is a product of the laboratories of the Globe Pharmaceutical Co., Chicago, but it as well as the other ingredients can be had from any good druggist.

Prepared for the Worst.

Gov. John A. Johnson of Minnesota, who had many supporters for the Democratic nomination for president, was asked what his attitude on the matter was.

"Why," he said, "I can best explain my attitude by telling you about a man I knew out west who went to town one night and imbibed very freely at the various bars."

"He was weaving an uncertain way homeward along the road when he almost ran into a large rattlesnake that was coiled in the road and rattled ominously. He looked at the snake for a moment and then drew himself up as well as he could. 'If you are going to strike, strike, drat ye,' he said. 'You will never find me better prepared.'"

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Not That Brand of Breakfast Food.

"Walter," said the guest in a non-fashionable hotel, "have you table d'hôte here?"

The waiter considered. Then the fever against warning the "do-not-accept-of-a-substitute" warning is issued, seized upon him.

"We haven't any of that, sir," he replied, "but I can bring you some corn-flakes."

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

320 ACRES INSTEAD OF 160 ACRES

60 ACRES IN WESTERN CANADA FREE

As further inducement to settlement of the wheat-raising lands of Western Canada, the Canadian Government has increased the area that may be taken by a homesteader to 320 acres—160 free and 160 to be purchased at \$3.00 per acre. These lands are in the grain-raising area, where mixed farming is also carried on with unqualified success. A railway will shortly be built to Hudson Bay, bringing the world's markets a thousand miles nearer these wheat-lands, where schools and churches are convenient, climate excellent, railways close to all settlements, and local markets good.

"It would take time to assimilate the revelations that a visit to the great empire lying to the North of us unfolded at every turn."—Correspondence of a National Editor, who visited Western Canada in August, 1908.

Lands may also be purchased from railway and land companies at low prices and on easy terms.

For pamphlets, maps and information as to low railway rates, apply to Superintendent of Immigration, Ottawa, Canada, or the authorized Canadian Government Agents.

THE GOLD ALASKA SENDS SEATTLE

For the eleven months ending December 1, 1908, the aggregate of Alaska's gold shipments to Seattle was \$18,223,756. This is an increase of nearly \$2,000,000 over last year's shipments, and it is estimated that the total for 1908 will reach \$19,000,000!

Seattle has first use of all this gold.

Seattle acquires permanent ownership of much of this gold.

But Seattle herself has even a richer "gold mine" than all of Alaska's—an inexhaustible, ever-increasing "gold mine" in the ever-increasing values of her Central Business Property. Into this subject you will wish to look on your visit to the ALASKA-YUKON-PACIFIC EXPOSITION, 1909. Let me advise you as fully as possible beforehand.
